

Subject: Chowder Race Results

Here are the results from yesterday's chowder race. It was very well attended, and while the downwind leg had most of us wallowing in near calm, the final two legs brought good wind and a fair amount of speed for everyone. I appreciated the turnout, and if it's that good for the next race, perhaps I will just man the committee boat.

Speaking of which, is there any interest in another race in July? I was thinking about July 22nd, so everyone can hone their skills before the S-N-L Regatta on the 29th. If we have enough racers, I will bring some refreshments for afterward. Please RSVP if you are interested.

Also attached are some photos from the race.

Thanks again to those who participated.

Kevin

Chowder Race - July 8, 2006

Wind Light and Variable from E/NE, then 6-8 knots from E
